

School Profiles

for the 2002-03 School Year

Cary High

School ID Number: 368

638 Walnut Street Cary, NC 27511

Phone: (919) 460-3549 Fax: (919) 460-3573

Current Principal: David Coley

This profile contains information from the 2002-03 school year describing the school environment, student population, and accountability program results. Current information may be obtained by contacting the school.

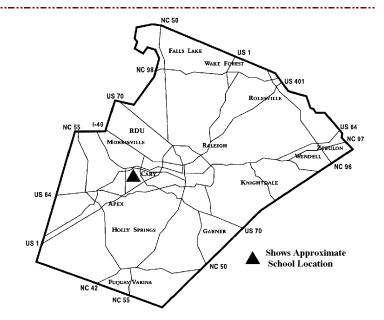

2002-03 Principal: David Coley **Grade Levels Served:** 9-12

Calendar: Traditional

Facility Data

Original Construction Date: 1958
Most Recent Renovation: 1997
Building Square Footage: 205,522
Size of Property (acres): 38.9
Permanent Classrooms: 84
Portable Classrooms: 10
Campus Capacity: 101%

(See the introduction to the profiles for further explanation of items in this report.)

Mission Statement/Program Description

Cary High School reflects the vitality and progressivism of the community it serves. Incorporated on July 24, 1896, it became the state's first public high school in 1907. Completion of a major renovation project has left Cary High ready to excel in her second century.

Cary High School's staff employs a wide range of teaching techniques to prepare students for the future. A computer-based Accelerated Learning Center meets diverse student needs through interactive instruction delivered via the Internet. Community partnerships led by the Cary Chamber of Commerce and the Town of Cary involve the business community in students' learning. Six active parent organizations assist in motivating students and staff and in making CHS extracurricular activities outstanding. CHS is proud of its traditions in all areas - academic, athletic, artistic, and vocational.

Fall 2002-03 Student Population Characteristics

	Male								Female				1 otai
	White	Black	Asian	Hisp	Multi	AmInd	White	Black	Asian	Hisp	Multi	AmInd

Average Daily Attendance (calc. at end of school year)	95.2%	93.6%	94.0%	96.4%

Student Mobility

Student Mobility describes how much students move into, out of, and between schools. Mobility can impact classroom planning and student performance when students leave and are replaced by other students whose needs must be assessed.

One measure of mobility is "stability"-- the percentage of students at a school at the end of the year who were continually enrolled in the school since the first week. The higher the percentage, the more "stable" the student population has been.

Another measure of mobility is "turbulence"— the movement in and out of a school during the year after the first 20 days. This is calculated by adding all entries and withdrawals and then dividing by the cumulative enrollment (all students who enter the school during the year). The lower the percentage, the lower the impact of entries and withdrawals on school operation.

Stability:

This school in 2002-03: **94%** All High schools in 2002-0 95%

Turbulence: Not Yet Available

Results from the North Carolina ABC Accountability Program

In 1996, the State Board of Education was given the authority to implement a plan which sets student achievement goals for every North Carolina school. The "ABC" Plan for high schools in 2002-03 set goals for student performance in ten courses in which students take End-of-Course (EOC) multiple-choice standardized tests. Two levels of gain ("Expected" and "High") were set by a formula developed for the State Board of Education. The formula generated predicted EOC scale scores for each course at each school based upon the prior achievement of the students in that school. The actual average scores achieved by the students were then compared to the Expected and High target scores. In addition to comparing average EOC scores to predicted target scores, the formulas examined change over time across cohorts of students in dropout rates and the percentage of graduates meeting requirements for entry into the state university system and Tech-Prep programs.

Performance:

The "Performance Composite" for every high school was defined as the percentage of all EOC tests administered in the school on which students achieved Level III or Level IV scores. (See pages 5 and 6 of this profile.) Schools with 80-89% of test scores at or above Level III were designated as "Schools of Distinction," and schools with 90% or more of test scores at or above Level III were designated as "Schools of Excellence" by the State Board of

	<u>2000-01</u>	2001-02	2002-03
The Performance Composite score for this school:	79.1%	85.1%	86.4%

Growth:

The differences between the average scores shown above and "Expected" and "High" standards for each course were weighted by course participation and then added together to determine whether or not schools met the state's Growth criteria. (Note: A different set of criteria was used prior to 2000-01 and results should not be compared to the results shown below.)

In 2000-01 this school: Met High Growth Standard
In 2001-02 this school: Met High Growth Standard
In 2002-03 this school: Met High Growth Standard

Average EOC Scales Scores in this School in 2002-03

Courses Required Students	for All	Elective Courses		
Algebra 1	66.9	Geometry	65.9	
Biology	62.7	Algebra II	72.4	
ELPS	59.7	Chemistry	65.1	
English I	61.6	Physical Science	57.9	
US History	59.3	Physics	60.9	

Other Accountability Measures

Dropout Rates

2000-01: 5.2% **2001-02:** 3.1% **2002-03:** N/A

The Dropout Rate is finalized several months after the end of the school year. Therefore, the latest rate does not show in this report.

College Preparation:

The percentage of graduating seniors who successfully completed all courses required for entry into the University of North Carolina system are shown below.

2000: 76.5% **2001:** 77.9% **2002:** 74.8% **2003:** 74.2%

Tech/Prep Graduates:

Beginning in 1998-99, WCPSS graduates were identified as "Tech/Prep Completers" if their course of study included specific courses that prepared them for entry into technical jobs. Below are the percentage of graduates completing Tech/Prep requirements at this school.

2001: 3.4% **2002:** 6.3% **2003:** 10.7%

SAT

SAT scores are not used when calculating state recognition awards but they are reported as part of the accountability program. The following table shows average SAT scores for students who took the test and indicated that they would graduate at the end of the indicated school year. The participation rate is the percentage of the graduating class that took the test.

	Math	Verbal	Total	Participation
2000-01:	539	525	1064	80.3%
2001-02:	552	518	1070	77.0%
2002-03:	540	522	1062	77.0%

Adequate Yearly Progress (AYP)

AYP is based upon a set of performance targets that high schools must achieve each year to meet the requirements of the federal No Child Left Behind (NCLB) Act of 2001. AYP for high schools is based upon reading and math tests given to all tenth-grade students. The ten student subgroups that must meet prescribed targets in reading and math are: the school as a whole, American Indian, Asian, Black, Hispanic, Multiracial, White, Economically Disadvantaged (FRL students), Limited English Proficient, and Students with Disabilities. Schools are identified as meeting AYP if both reading and math targets are met for all student subgroups comprised of 40 or more students. North Carolina statewide targets in 2003 for tenth-grade were 52.0% in reading and 54.2% in math for grades 3-8.

For the 2002-03 School Year: This school DID NOT MEET AYP

It Met: 18 out of 21 targets, or 86% of all its targets.

For more in-depth information on AYP, please see the North Carolina Department of Public Instruction AYP website at: http://ayp.ncpublicschools.org

End-of-Course (EOC) Test Results from Courses Required for Graduation

Proficiency on End-of-Course tests is defined as the percentage of students scoring in Levels III and IV. Test scores for these students indicate that they are well prepared for more advanced coursework in the subject area. The following tables show the number of students taking the tests in courses required for graduation at this school and the percentage of scores in Levels III and IV. If fewer than 10 students are in a group, the entry is blank.

EOC Test Results from Five Elective Math and Science Courses

Students taking five elective math and science courses (Algebra II, Chemisty, Geometry, Physics, and Physical Science) are also required to take End-of-Course tests. As with other EOC tests, scale scores fall into four levels. The following tables show the number of students who took the test and the percentage who achieved a Level III or IV score. If fewer than 10 students are in a group, the entry is blank.

School Effectiveness Over Time

The Effectiveness Index is a method for comparing the achievement of students in a particular school with the achievement of similar students across the entire school district. The indices are based upon North Carolina End-of-Course (EOC) Tests administered at the conclusion of each of five Core and five Elective high school courses. Variables considered in the model include EOC test scores for each student, each student's special education status, and two measures of socio-economic status. EOC test scale scores are analyzed for all of the students in a school who take an EOC test, and schoolwide performance is summarized by comparing how students in that school perform to how all similar students perform on that test across the school district. If schoolwide performance is similar to what occurs districtwide in 75-80% of schools, the category is labeled "Expected." If performance varies significantly, the category is labeled "Below" or "Above" to indicate that achievement on end-of-year tests was below or above what might be expected based upon the characteristics of the students in the school.

A Table Comparing This School's EOC Test ResultsTo Other WCPSS High Schools

Core Courses	2001-02	2002-03
Algebra 1	Expected	Above
Biology	Expected	Above
ELP	Expected	Above
English 1	Above	Above
US History	Expected	Expected

Elective Courses

Algebra 2	Above	Expected		
Chemistry	Expected	Expected		
Geometry	Above	Expected		
Physical Science	Above	Above		
Physics	Expected	Expected

WCPSS Survey Results

WCPSS conducts annual surveys of parents and high school students using randomly chosen samples of participants. Some of the items on the surveys are kept constant over time so that schools can measure improvement. The following two tables show the percentage of respondents "agreeing" or "strongly agreeing" with selected statements from the Spring 2002 and the Spring 2003 surveys. Detailed summaries of districtwide responses to all survey questions are available on the Evaluation and Research Department website.

Parent Survey Results	2002	2003
My child's school is a safe place to learn.	98.2 %	94.8 %
My child's school provides a high quality educational program.	91.9 %	90.9 %
My child is given challenging work in all classes.	78.4 %	78.9 %
Students at my child's school are well behaved overall.	83.5 %	77.9 %
The rules of this school are fair.	87.9 %	89.4 %
Teachers in this school really seem to care about the students.	89.8 %	87.8 %
This school promotes understanding among students from various backgrounds	88.5 %	88.6 %
The percentage of Parents returning the survey at this school was:	50%	50%
Student Survey Results	2002	2003
This school is a safe place to learn.	93.9 %	88.9 %
The students at this school get along with each other.	66.5 %	61.2 %
The rules of this school are fair.	66.2 %	51.9 %
My school provides many ways to help me learn.	N/A	84.6 %
I like my school.	77.4 %	65.4 %
This table compares the percentage of Parents and Students rating this school n 2003 as "good" or "excellent" on helping students learn certain skills.	20 Parents	003 Students
Reading Skills	89.0 %	79.0 %
Writing Skills	87.0 %	79.7 %
Math Skills	91.4 %	80.9 %
Social Studies Skills	88.5 %	81.7 %
Science Skills	87.8 %	84.3 %
